**OUT OF CONTROL, BUT REAL!**  
EXHIBITION BY COOPERATIONS ART  
VERNISSAGE AT THE NUITS DES LAMPIONS  
GALERIE PRABELLI

Giving up control and giving in to one's impulses. This is how the creations for the exhibition "Out of control, but real!" came to life, by playing with forms found in nature, plants and their leaves - a study really. Other materials such as wire and wool were added. Just as with the unravelling of the wool balls, new ideas popped up and were also reinforced by the emotions of the moment. An out-of-control game of adults? The artist collective cooperationsART is an interdisciplinary and inclusive artist network founded in Luxembourg that offers creative freedom and platforms for artists to communicate, learn, realise and present interdisciplinary arts and artworks.

DANCE  
JARDIN DE WILTZ

24 Fps - that's the standard video recording speed, i.e. 24 frames per second. A standard that allows us to see images with optimal fluidity for the human eye. But this exaggerated speed is also very much in line with the image of our societies today. The dance and choreography duo Catarina Barbosa and Baptiste Hilbert show us their view of things, a new way of dealing with this flow of information.

Tahiti 80, named after a souvenir T-shirt given to Boyer's father in 1980, has released eight acclaimed albums with new additions Raphaël Léger on drums and Hadrien Grange on keys. REGGAE

JARDIN DE WILTZ

Lively, authentic, full of joie de vivre and a bit chaotic: "Le Vibe", a young reggae band from Luxembourg, consisting of 7 musicians who see themselves as a community or even a family. "The Vibe" plays a colourful mixture of roots reggae, enriched with genres like Afrobeat, funk and jazz. The result is honest and positive music that encourages the audience to dance and also makes them think.
